SUMMARY

Software Engineer with 5+ years of experience building and scaling production web and mobile applications. Experienced in owning projects end-to-end, building CRM products from scratch, and improving application performance and code quality. Strong focus on React, React Native, TypeScript, and modern backend development.

WORK EXPERIENCE

MMI Softwares Pvt. Ltd.— Senior Software Developer

Apr 2026 – Present

- Built 3+ CRM applications from scratch using React, Next.js, TypeScript, Hono, and PostgreSQL, owning development from architecture to delivery.
- Optimized API data fetching with TanStack Query and QueryClient caching to reduce unnecessary network requests.
- Standardized reusable UI with shadcn-based components and Storybook, improving project structure and TypeScript code quality.

Nickelfox Technologies — Software Developer II

Sep 2025 – Apr 2026

- Built production React Native applications for Android and iOS using TypeScript, Kotlin, and Swift, working directly with US clients to deliver projects end-to-end.
- Reduced API/network overhead by 10% through request optimization and batching, while improving app performance with memoization and lazy loading.
- Worked with GitHub-based development workflows, code reviews, CI/CD, and reusable React Native components across large codebases.

iMeet Technologies — React Native Developer / Full-Stack Engineer

Jun 2024 – Sep 2025

- Developed production React Native applications with authentication, REST API integrations, push notifications, and Redux/TanStack Query.
- Improved application stability and performance through debugging, refactoring, optimized rendering, and reusable component development.
- Worked across React web and mobile applications, integrating backend services and supporting production releases for Android and iOS.

Elano InfoTech —Software Developer

Sep 2021 – May 2024

- Progressed from Software Developer Intern to Mobile Application Developer while building production React Native applications for Android and iOS.
- Improved application performance and maintainability through reusable components, TypeScript adoption, refactoring, and structured project organization.
- Integrated REST APIs and Redux while contributing to debugging, testing, Git/GitHub workflows, and production releases.

EDUCATION

Master of Computer Applications GLA University Mathura	Aug 2025 — Present
Bachelor of Computer Application Rajiv Academy Technology & Management	Aug 2021 — Jun 2024

ADDITIONAL INFORMATION

- **Languages:** JavaScript, TypeScript, SQL, Java, Kotlin
- **Technologies:** React, Next.js, React Native, Node.js, Express, Hono
- **Architecture:** Domain-Driven Design (DDD), Feature-Oriented Architecture
- **Mobile:** React Native, Android, iOS, Kotlin, Swift
- **Engineering:** API Performance, Code Review, Debugging, Refactoring, Performance Optimization
- **Tools & AI:** Git, GitHub, Docker, Bun, Claude, ChatGPT, Cursor
